A Love Story of Kaiser William.

The German edition of the Daily News of New York City is responsible on this side of the water for a love story about the Kaiser William, it is of cold milk; add 3 or 4 well-beaten to the effect that when Prince William, eggs, enough sugar to sweeten, I teaof Prussia, entered France with the spoon butter, and a little grated nutallied invaders in 1815, a youth of nineteen, he lodged in the house of a wellto-do citizen at Dizier, who had a very pretty daughter. With this damsel, fore placing it in the oven; bake about Angelique Barnier, the youthful Prussian Prince struck up a tremendous viously stewed until tender. Serve firtation, and when he marched away with or without sauce. to Paris left written on a pane of her window, as well as on the "red tablets of love thee. William." More than half a century rolled away; and when in 1370 the Prussian guards rode into Dizier, Angelique Barnier. a stant matron now. her heart," these words in German: "I I have never forgotten you!"

Another Life Saved by a Brave Engimeer.

As train 1 (day express), drawn by locomotive 23, Charles G. Mygatt, engineer, was climbing the grade between a "wildcat" coming east.

with no effect whatever-the noise of of the approaching one—and the man of nervous disease it tranquillzes that great the passing train drowning the signals kept on his course. Knowing that at sensorium, the brain, far more effectually the rate of speed the train was making than any mineral sedative. -between twenty and thirty miles per hour-it could not be checked in time to save the poor man's life, the intrepid to save the poor man's life, the intrepled ness in the head, a bad taste in the mouth, engineman sprang out of the cab window, and along the running-board, reaching the forward part of his engine just as the pilot struck the man and hurled him backward. With a vice-like grip Mygatt seized him and braced himself for the emergency, while the train therefore the emergency, while the dirty appearance, ever sunker and tinged train thundered along at a fearful rate.

Nearly two miles had been passed over, and still the resolute engineer clung to his charge, which was relinquished color at the resolute engineer clung to his charge, which was relinquished color at the resolute engineer clung to his charge, which was relinquished color at the resolute that his his liver complaint, another tells him his ball that the resolute that his liver complaint, another tells him his liver complaint.

people, on the Bombay and Baroda Railway, in India, has been the scene of one of the most frightful outbreaks of cholera ever known. Over half of the best medical men have found relief after the population died in three days. using it. The country is full of just such The disease appeared at noon on the daybreak next morning terred to is sold by A. J. White, 319 Pearl Street, N. Y. Agents wanted. there had been fifty-seven deaths. On the 8th all the survivors fled, but were refused admission by the adjacent villages. The disease displayed extreme tablished itself as the real infallible Chili virulence, some cases proving fatal in twenty minutes. There is no resident doctor in the village, and medical help was some time in arriving. Gross negulate the desired from all parts of the country. It lect of sanitary measures is the apparent cause. Cholera appears to be unsually prevalent this year outbroaks. usually prevalent this year, outbreaks being reported from various parts of India, none, however, approaching that of Golyand in violance. that of Golwood in violence. -

SEASONABLE RECIPES.

Currant Cake.—

2 cup butter, 1 of sugar, 2 eggs, 4 cup milk, 14 cups flour, 14 teaspoons baking-powder, 1 cup well-washed currants, stirred in the last thing. This is very good.

Rice Pudling .- A scant & teacup wellwashed rice, I pint milk, 1 pint cold water, I teacup sugar, small piece of butter; flavor to suit taste. Bake about 2 hours in a moderate even. No sauce is required. 1 teacup of raisins, or same of currants, will make a very rich | the livers of cattle, sheep, and swine, are ten

Liver Complaint.

BY R. V. PIERCE, M. D., of the World's Dis-pensary, Buffalo, N. Y., Author of "The People's Common Sense Medical Adviser,"

The Liver is the great depurating (purifying organ of the system, and has very appropriately been tormed the "housekeeper" of our health. I have observed in the dissecting room, and also in making post-mortem examinations of the bodies of those who have died of different diseases, that in a large proportion of cases, the liver has given evidence of having at some time been dis-eased. Liver affections are equally preva-lent in beasts. Every butcher knows that times as frequently diseased as any other organ. A healthy liver each day secretes about two and a half pounds of bile. When it becomes torpid, congested, or if, from any cause, it be disabled in the performance of its duties, it is evident that the elements of the bile must remain in the blood, thus irritating, poisoning, and perverting, every vital process. Nature attempts to rid the system of these noxious materials by means of other organs, as the kidneys, lungs, skin, etc., which become overtaxed in performing their additional labor, and are unable to withstand the pressure.

The brain, which is the great electrical center of all vitality, becomes overstimulated with unhealthy blood, and fails to normally perform its functions. Hence there is duliness, headache, impairment of the memory, dizziness, gloomy forebodings, and irritability of temper. When the blood is diseased, the skin manifests discolored spots, pimples, blotches, boils, carbuncles, and scrofulous tumors. The stomach and bowels, sooner or later become affected, and constipation, piles, dropsy, dyspepsia, or diarrhea, is the inevitable result.

SYMPTOMS OF LIVER COMPLAINT. A sallow color of the skin, or yellowishbrown spots on the face and other parts of the body; duliness and drowsiness, with frequent headsche; dizziness, bitter or bad taste in the mouth, dryness of the throat, and internal heat; palpitation of the heart. and a choking sensation in the taroat; sick-ness and vomiting, distress, heaviness, and a bloated, or full feeling about the stomach and sides; aggravating pains in the sides, back, or breast, and about the shoulders; Centennial Prune Pudding.—Heat a little more than 1 pint of sweet milk; when boiling, stir in gradually the folwith symptoms of apoplexy; numbuess of the limbs (especially at night), and chills, alternating with hot flashes; kidney and other urinary difficulties, dullness, low spirits and gloomy forebodings. Only a few of these symptoms will be likely to be present

in any case at one time.

TREATMENT.—Take Dr. Pierce's Gold. en Medical Discovery, with small doses of his Pleasant Purpative Peliets, which act as an alterative on the liver. For Liver Complaint and the various affections caused by a discased liver, these remedies are unsurpassed. The Golden Medical Discovery does not simply pailiate the disease, but it produces a lasting effect. By its use, the liver and stom-ach are changed to an active, healthy state, the appetite is regulated, the blood purified and enriched, and the entire system reno-

Schenck's Sea Weed Tonic.

Is the stmosphere experienced here during the quent perspirations reduce bodily energy, particularly those suffering from the effects of debilitating diseases. In order to keep a natural healthful activity of the system we must resort to artificial means. For this purpose Schenck's Sea Weed Tonic is very effectual. A few doses will create an appetite and give fresh vigor to the enervated body. For dyspepsia it is inveloable. Many emi-nent physicians have doubted whether dyspepsia can be permanently cured by the drugs which are generally employed for that purpose. The Sea Weed Tonic, in its nature, is totally different from such drugs. It contains no corrosive minerals or scids; in fact, it assists the regular operations of nature and supplies her deficiencies. The Toole in its nature so much resembles the gastric juice that it is almost identical with that field. The gastric juice is the natural solvent which, in a healthy condition of the body, causes the food to be digested; and, when this juice is not excreted in sufdelent quantities, indigestion, with all its distressing symptoms, follows. The Sex Weed Tonic performs the duty of the gastric Juice when the latter to deficient. Schenek a Sea Weed Tonic sold by all Druggists.

MUSTANG

WITHOUT ONE FAILURE OR BEJECTION

This is the famous Threshing machine that has "swept the field" and created such a revolution in the trade, by its MATCHLESS GRAIN-SAVING AND TIME-SAVING

with other styles of Threshers, can be SAVED by this improved Machine, sufficient, on every jet, to more than you all expenses of threshing.

FLAX, TIMOTHY, MILLET, HUNGARIAN and like seeds are threshed, separated, cleaned and saved as easily and perfectly as Wheat, Oate, Rye or Barley. AN EXTRA PRICE is usually paid for grain and seeds cleaned by this machine, for extra cleanliness.

IN THE WET GRAIN of 1875, these were substantially the ONLY MACHINES that could run with profit or economy, doing fast, thorough and perfect work, when others utterly failed.

ALL GRAIN, TIME and MONEY wasting complica-tions, such as "Endless Aprons," "Raddles," "Besters," "Pickers," etc., are entirely dispensed with; less than one-half the usual Gears, Belts, Boxes, and Journals; casier managed; more durable; light running; no cost-ly repairs; no dust; no "litterings" to clean up; not troubled by adverse winds, rain or storms. FARMERS and GRAIN BAISERS who are ;

in the large saving made by it will not employ infe-rior and wasteful machines, but will maist on this improved Thresher doing their work.

FOUR SIZES made for 6, 8, 10 and 12 Horse Powers. Also a specialty of SEPARATORS, designed and made expressly for STRAM POWER. TWO STYLES OF HORSE POWERS, viz.: our improved "Triple Gear," and our "Spur Speed" (Woodbury Style), both "Mounted" on four wheels.

IF INTERESTED in Threshing or Grain Raising, apply to our nearest Dealer, or write to us for Illustrated Circular (sent free), giving full particulars of Sizes, Styles, Prices, Terms, etc.
